## Officials Signal Chart & Officials Manual

Establish a signal to be used after a basket is made and there is a stoppage in play. The signal is used by the officials to indicate the team inbounding the ball may run the baseline.

The signal will be executed by extending the arm laterally, bending the elbow at a 90-degree angle, moving the hand and forearm from the elbow in a waving motion horizontally along the end line. A new picture will need to be added to the signal chart.

## Philosophy of Officiating

Do you have a personal philosophy of officiating?

Officiating is meant to keep the game fair

The purpose of the rules is to penalize a player who by reason of an illegal act has placed his opponent at a disadvantage

This means that good officials are expected to be subjective and use their judgment to decide which infractions should be penalized. This also implies that the best officials not only know the rules extremely well, but how the rules affect the flow and spirit of the game
